GENERAL INFORMATION

MICRO FLO is a complete nutrient package, supplying essential nutrients to all crop types. This product delivers high levels of macro and micronutrients directly to the crop at critical times. The nitrogen, potassium, calcium, zinc, and boron improve fruit set and development. The magnesium, iron, and manganese can increase overall health reducing chances for disease and pest damage during stress events. No mixing of any other products is required. Everything contained in this product can be utilized by the plant. MICRO FLO was uniquely formulated for maximum uptake and availability. This product has an extremely low salt index and no chlorides that negatively affect growth and productivity. MICRO FLO is a highly soluble, liquid formula, held in solution for effortless applications and fantastic results.

DIRECTIONS FOR USE

MICRO FLO can be applied to most field crops, row crops, vegetable, cucurbit crops, deciduous fruit and nut trees, citrus, grapes, berries, olives, and avocados.

FOLIAR APPLICATION RATES

Apply 1-5 gallons per acre per acre. Minimum water volume is 10 gallons per acre by air. Minimum water volume is 20 gallons per acre by ground. Do not apply this product when temperatures exceed 90°F.

FERTIGATION APPLICATION RATES

Apply 5-25 gallons per acre per irrigation. Continue irrigation for a minimum of 2 hours after application to maximize nutrient distribution with drip and micro-sprinkler use. Repeat applications will be beneficial.

Consult your local STRAIGHT ARROW Certified Crop Advisor for a more precise application recommendation based on soil and/or plant tissue analysis.
